

Performance Panel

Members and Purpose

To ensure equity within all squads, the Performance Panel is made up of the Coaching Team and Two committee members. 3 times a year, coaches put forward suggestions to the panel with any recommended movements between squads. The panel ensures all movements are based on squad criteria. In addition to the regular reviews, Personal plans, where necessary, will be implemented to help the swimmer re-evaluate and focus on the objectives.

The Performance Panel review is used to improve the swimmers overall performance. The coaches and the Panel will meet in March, July and December to assess the performance of ALL swimmers and have discretion, in consultation with the parents concerned, to move swimmers between squads during the season.

All reviews and decisions will be made by the Panel.

There are 4 main sections which the criteria fall into;

1. Performance during training, competition
2. Attendance
3. Behaviour
4. Punctuality

The review will be conducted according to criteria set down in the swimmers performance policy.
